## PROFILE

Results-driven **AI & Data Engineer** with **nearly 4 years of experience** designing enterprise-scale **Azure Databricks Lakehouse** and **RAG-powered AI solutions** for healthcare and life sciences, including Fortune 500 clients. Proven expertise in building scalable batch & streaming ETL/ELT pipelines, vector search integrations, data governance, and performance optimization that deliver reliable, analytics-ready data for business decision-making.

## TECHNICAL SKILLS

- **Programming Languages**: Python (Pyspark, Pandas) , SQL
- **Big Data & Data Engineering:** Databricks, Delta Lake, Delta Live Tables (DLT), PySpark, Spark SQL, Unity Catalog, Azure Data Factory (ADF), Lakeflow, ADLS Gen2, Medallion Architecture
- **AI & GenAI Systems:** Retrieval-Augmented Generation (RAG), Vector Embeddings, Semantic Search,
- **Databases & Vector Stores:** Azure Cosmos DB (Vector Store), Azure AI Search, Azure SQL, PostgreSQL, MySQL
- **Visualization & Modeling:** Power BI, Databricks Dashboards, Star Schema, Dimensional Modeling
- **CI/CD & DevOps:** Jenkins, UrbanCode Deploy(UCD), Git, Docker
- **Orchestration**: Control-m, Airflow

## PROFESSIONAL EXPERIENCE

**Deloitte,** 01/2023 – present | Bangalore

*Data Engineer II* ( *promoted* : *Data Engineer I* > *Data engineer II*)

- Designed, built, and maintained **30+ scalable data pipelines** using **PySpark, Spark SQL, and Pandas** within a **Medallion Architecture** on **Delta Lake**. Processed over **80M+ records weekly** across complex enterprise data streams with **100% SLA adherence.**
- Built robust, **metadata-driven** ingestion frameworks using **Azure Data Factory (ADF)** and **Databricks Lakeflow** to ingest structured and semi-structured sources (SAP HANA, MySQL, Kafka, PostgreSQL). Automated **schema evolution, Auto CDC, SCD Type 2**, and quarantine frameworks across CSV, JSON, Parquet, and Delta formats, cutting pipeline onboarding effort by **40%**.
- Designed and implemented end-to-end **RAG workflows** on **Azure Databricks** using **vector embeddings** stored in **Azure Cosmos DB** and hybrid **semantic search** through **Azure AI Search**. Enabled lightning-fast context retrieval for complex enterprise policies and guidelines, empowering teams to deliver instant information to consumers and directly accelerating **20+ high-value client deal closures**.
- Engineered **advanced Spark & Delta Lake optimizations**—including **Adaptive Query Execution, broadcast joins, Liquid Clustering/Z-ORDER, file compaction**, and **caching**—delivering **60% faster queries** and **40% lower infrastructure costs**. Secured pipelines and data lakes using **Unity Catalog governance** (fine-grained **RBAC, data lineage**) and **Azure Key Vault**.
- **Automated build and deployment workflows** using **Jenkins** and **UrbanCode Deploy** to implement robust **CI/CD pipelines**, enabling controlled code promotion across development, testing, and production environments.
- Developed comprehensive Databricks **Dashboards** and **Power BI** analytical datasets from curated Lakehouse data, delivering real-time governance reporting, **fraud detection tracking**, and operational KPIs that empowered business leaders and Deloitte Partners to make data-driven decisions.
- Partnered with **data scientists, analysts, and cross-functional stakeholders** to translate business needs into **optimized Star Schema dimensional models**. Designed robust **fact and dimension tables** that significantly accelerated **high-performance querying** and analytics across enterprise datasets**; Mentored junior engineers** on Databricks best practices, data engineering standards, and platform architecture.

## EDUCATION

**Bachelor of Engineering: Electrical and Electronics Engineering,** 2018 – 2022

*Government Engineering College Thrissur*

CGPA : 8.08

## CERTIFICATES

Databricks Data Engineer, | AWS Cloud Practitioner

## ACHIEVEMENTS

- **RISING STAR:** Recognized for contributing to practice-building initiatives, leading with an innovative mindset, navigating uncertainty, and driving enterprise value
- **SPOT AWARD (2x):** Received twice for consistently demonstrating a strong work ethic and dedication to accelerating critical projects, ensuring on-time delivery with optimal quality
